PROJECTS & PORTFOLIO

ERA Hotel
Software Developer (Team Project) *July 2025 - August 2025*

- Full-stack hotel reservation system (React/Vite, Spring Boot, MySQL) that enables users to search for available rooms, make and edit reservations, and receive email confirmations. Implemented DTO/Mapper layers for clean data transfer and built an admin dashboard allowing management of rooms and user reservations.

H.O.R.S.E (Healthy Objectives Rehab Support Empowerment)
Software Developer (Team Project) *August 2025 - Present*

- Developing a physical therapy web app (React/Vite, JavaScript) that allows providers to assign daily exercises, activities, nutritional recommendations, etc. to patients and allows them to log in and access personalized routines.

LEADERSHIP & ACTIVITIES

California State University, Northridge Layer 8 Club **Northridge, CA**
Club Member *August 2024 – Present*

- Gaining skills in network security, vulnerability assessment, and basic and advanced cybersecurity practices
- Participates in cybersecurity skill workshops and develops skills in system security design

California State University, Northridge Game Development Club **Northridge, CA**
Club Member *August 2024 – Present*

- Involved in game development and mini coding projects
- Gaining experience in design mechanics, object-oriented programming, and development workflows

SKILLS

Programming Languages: Java, JavaScript, C++, C, C#, Python, HTML, MIPS, LegV8

Frameworks/Tools: Spring Boot, React/Vite, GitHub, Postman, VS Code, Unity, Microsoft 365, Google Suite, Unity

Databases & OS: MySQL, Supabase, AWS RDS, Windows, MacOS

Concepts: Object-Oriented Programming, Web Development, Data Structures & Algorithms, System Security, Network Security

Languages: Fluent in English & Armenian; basic proficiency in Spanish & Russian
